

A smarter, easier way to shopppe

Explore some of the things we've done to help make
your VaccineShopper experience even better.

VaccineShopper.com and 1-800-VACCINE (1-800-822-2463) are intended for US Health care professionals only.

You asked. We delivered.

Redesigned with you in mind.

It's now easier than ever to order the products you love. With the new quick-ordering form and a redesigned dashboard, placing your orders has never been faster.

[See What's New >](#)

Multiple locations? No problem.

Order for 1 location or multiple — all at the same time. Just another reason you'll love the time-saving benefits of our new, streamlined ordering process.

[How You'll Save >](#)

All of your products. One simple form.

Already know what you're looking for? List ordering makes it easy to search, add, and buy products for all your locations on a single screen.

[How You Benefit >](#)

Smarter shopping starts with the cart.

Stay organized and on top of your orders with the newly redesigned shopping cart. You'll get an instant snapshot of the products in your cart, along with the quantity going to each location.

[Why It's Smarter >](#)

An easier checkout experience.

Checking out should be the easiest part of the process. Now it is. Order and pay for all of your locations at once — so you can get back to what matters most: helping your patients.

[Meet the Features >](#)

Easier-to-navigate home page

Quicker access to what matters most.

With reorganized links and the addition of the shopping cart, it's now easier than ever to get to the account features you use daily.

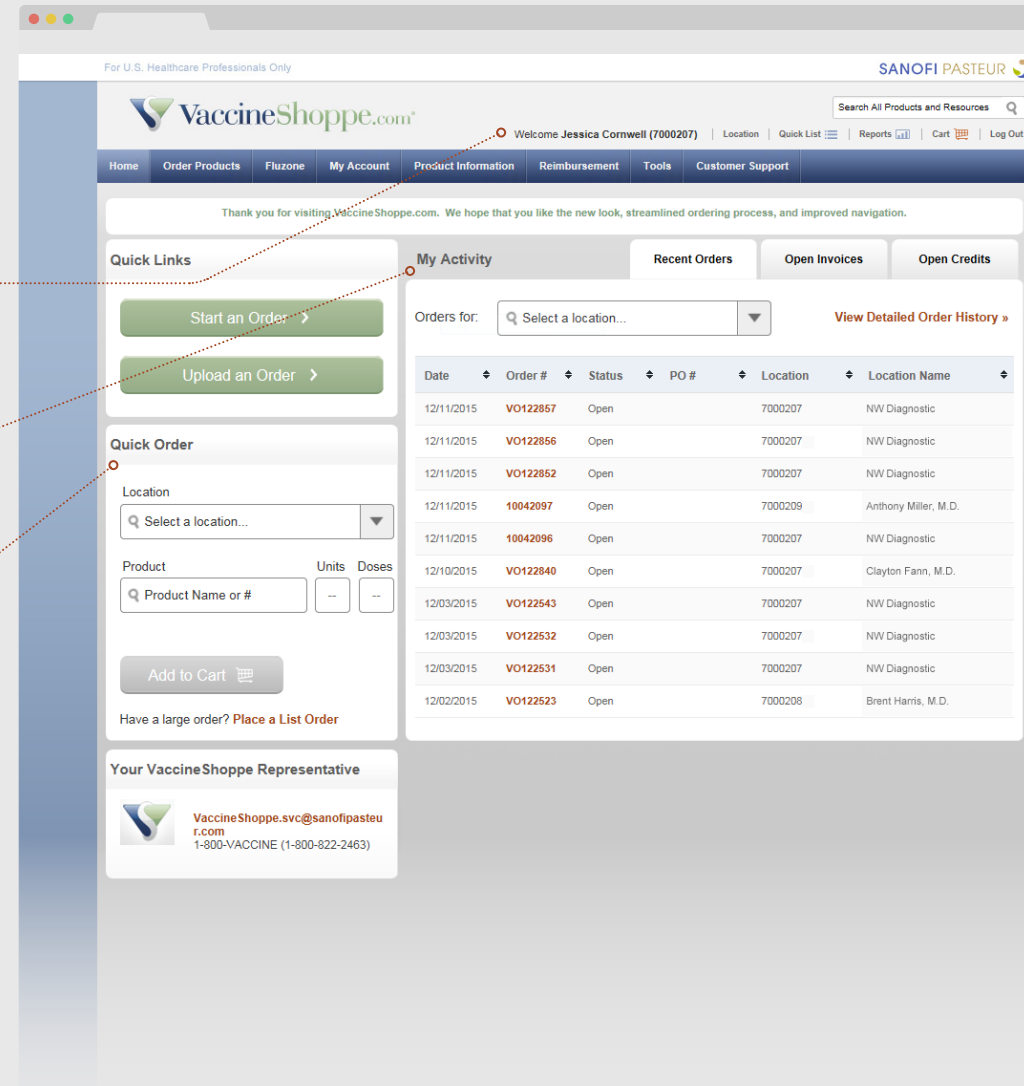

Stay organized and aware.

The **My Activity** section gives you a quick snapshot of your most recent orders, including the products for each location and the status of each shipment — so you can get peace-of-mind knowing your orders are accurate and on the way.

Order faster and smarter.

Use the new **Quick Order** tool to skip the catalog process and order right from the home page. Its smart location and product fields make it simpler for you to order for 1 location or multiple.

[See How to Make Large Orders >](#)

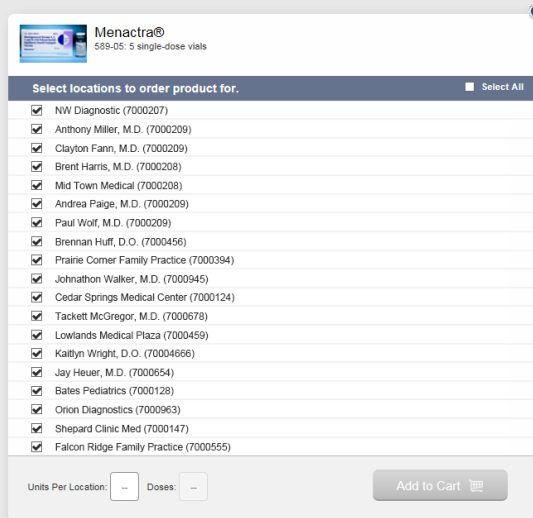

New, multi-location ordering

Faster location selection.

Easily change the location you're ordering for on the fly — without affecting the products you've already placed in your cart.

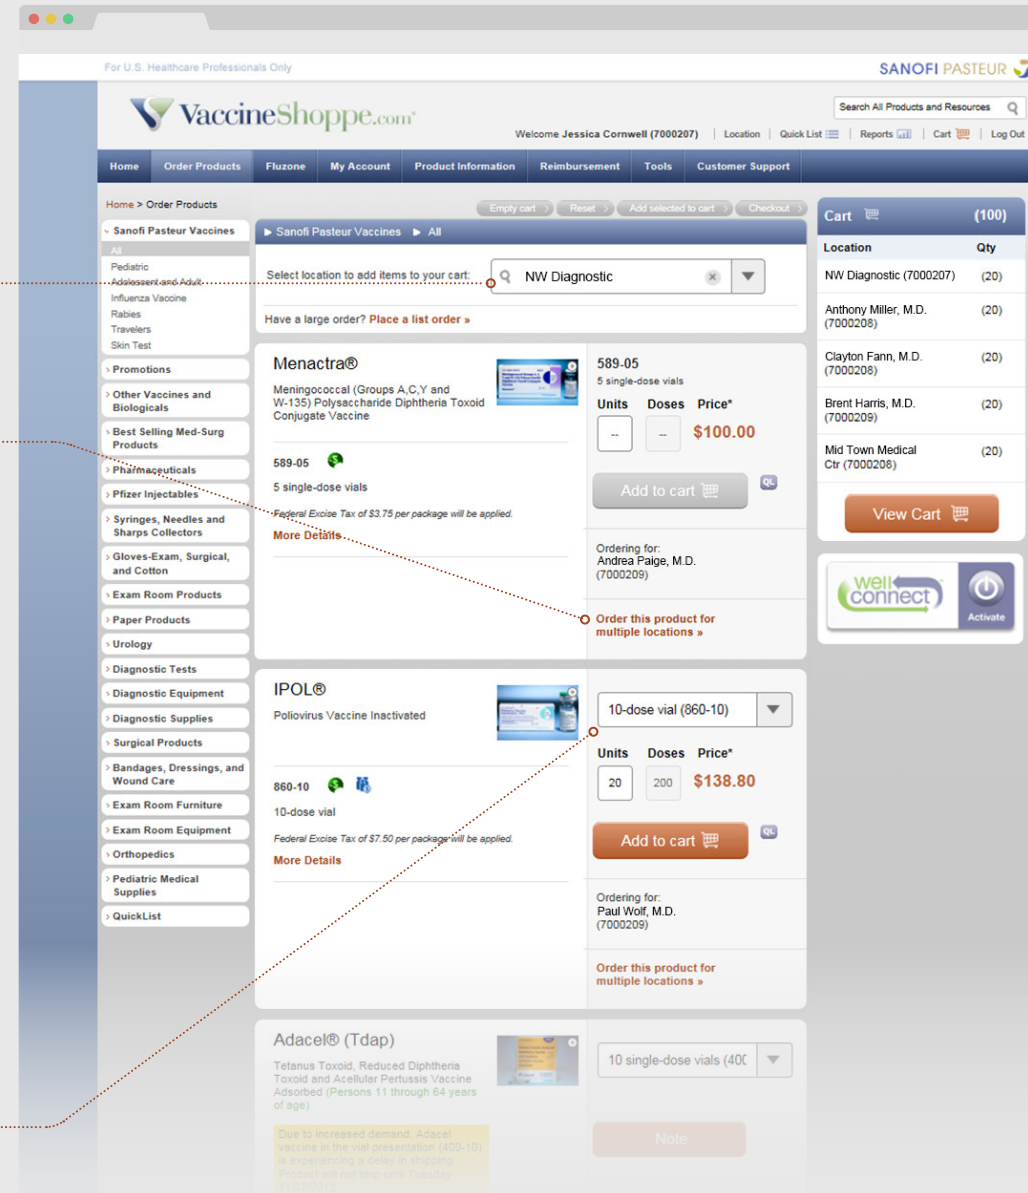

Easier ordering for all.

Ordering a product for multiple locations is now just a click away. All you have to do is decide what to order and where it gets sent.

A better presentation experience.

Choose a presentation type for each product right in the convenient drop-down menu — letting you quickly add different presentations for each location without searching through the product catalog.

Simplified list ordering

Larger orders in half the time.

Already know what you want? Skip the catalog and start shopping with the new **List Orders** form. Simply enter your location, product name, units and dosing information to quickly add items to your cart.

Even more ways to shop.

For even more time-saving benefits, try shopping for products using our new **Upload an Order** feature. Just enter your products using our custom spreadsheet template to begin changing line items into actual orders.

Keeping your cart close.

The new cart widget gives you a quick glance at the products and quantity for each location. Best of all, you'll be able to see it from every ordering screen to help you stay organized.

List Orders

For larger orders, you can save time in two ways:
1) Use the fields below to enter products and quantities. Select the location you would like to ship to, then click Add to Cart.
2) Or, save even more time by using our **spreadsheet template**. Just fill out the sheet on your computer, then drop it anywhere in this box.

A smarter shopping cart

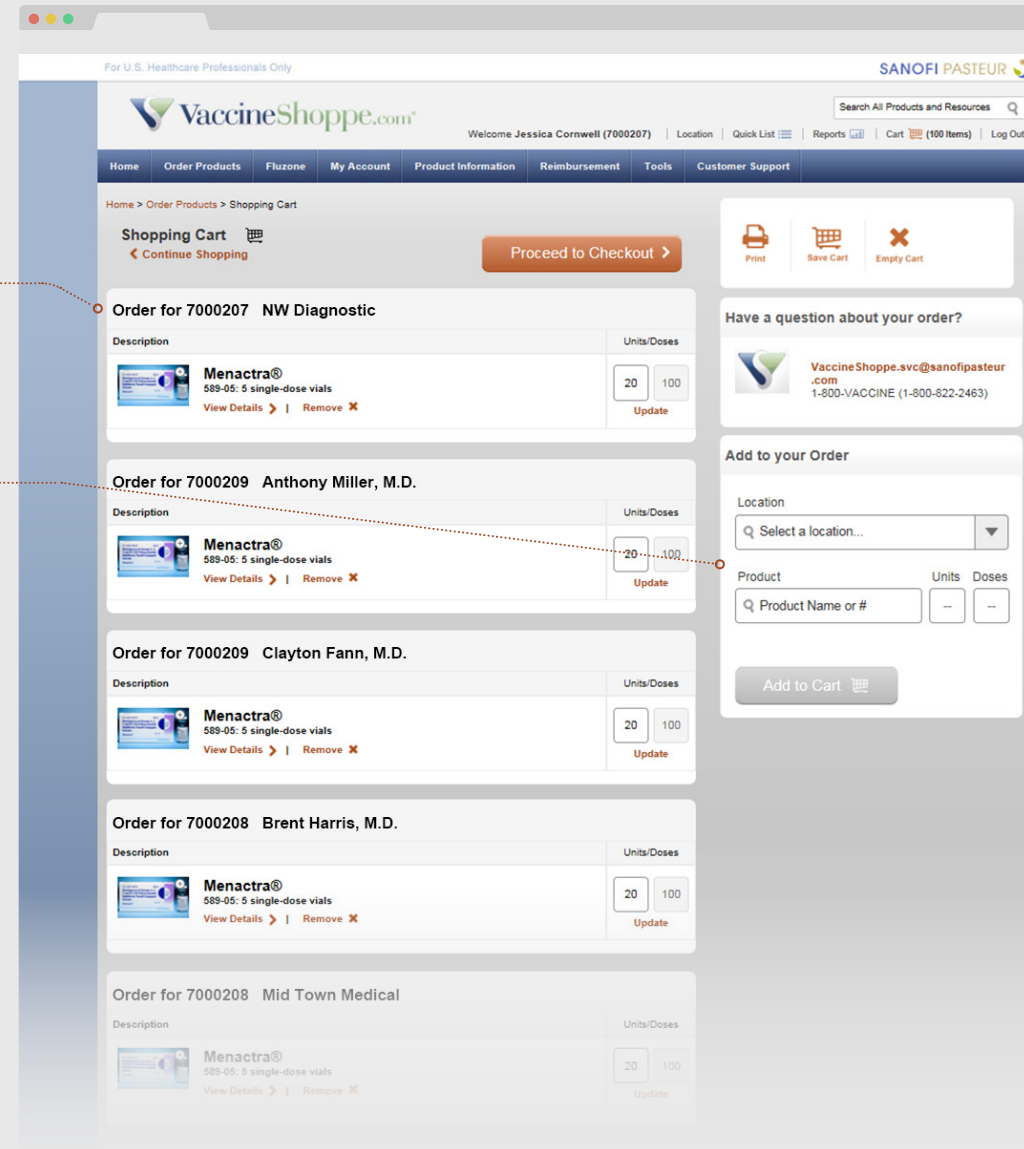

New look. Newer features.

The newly redesigned shopping cart gives you a detailed look at the products and quantities going to each location. So you can add, change, and review — all right in the cart.

More shopping and less navigating.

Not finished shopping? You can now add to your cart at any time using the new, **Add to your order** section. The best part? You never have to leave the page.

[See How the Checkout Process Has Improved >](#)

A quicker checkout

Print. Save. Export.

Introducing new ways to keep track of your orders. With improved management functionality, you can keep your orders organized and at hand for when you need them most.

One easy checkout for all your locations.

Easily manage and check out for all of your locations from a single screen — meaning less time spent in the checkout line and more time back in your pocket.

Support tailored for you.

Save time during checkout by spotting problems early. Instantly preview your entire order summary in checkout before hitting submit — and get personalized support for any speed bumps you experience along the way.

Streamlined tracking.

Assign individual PO numbers for each of your locations on **step 3** of checkout to effectively manage and track all of your orders on the same page. Just another reason you'll love the new VaccineShopee.
